ORPHEUS - Developing Best Practices for Graduate Education in Europe

Special Session — Wednesday, April 6, 2016 — 2:30 PM - 4:30 PM — Convention Center, Room 25C
Comprehensive Physiology — Chair: Joey Barnett — Co-Chair:

NDOGS leaders have worked in collaboration with ORPHEUS (Organisation for PhD Education in Biomedicine and Health Sciences in the European System), an association of European biomedical and health science faculties and institutions committed to developing best practices for graduate education in Europe, to develop workshops and symposia. These are designed to discuss graduate education at venues such as Experimental Biology, International Union of Basic and Clinical Pharmacology, and the standing meetings of each partner. Recently, FASEB has become an associate member of ORPHEUS.

The President of ORPHEUS, Professor Bob Harris of the Karolinska Institute, will present. Dr. Harris has recently reorganized the Ph.D. program at the Karolinska, an effort that is being closely followed in Europe. He will discuss his efforts at the Karolinska and the ORPHEUS training guidelines. These efforts can be compared and contrasted with those in the United States. We anticipate a lively discussion of his presentation.

Speakers

- TBA
 Robert Harris — *Clinical Neuroscience (CNS) K8, Karolinska Univ.*
