

HEALTHY AGING

7-9 SEPTEMBER 2017
CRACOW • POLAND

INTERNATIONAL
CONFERENCE
FOR PhD STUDENTS
**IN BIOMEDICAL
RESEARCH**

The Conference is organized by Jagiellonian University Medical College, a medical school with over 600 years of tradition in research and education.

The topic of the conference is 'Healthy Aging'. This will cover a wide spectrum of laboratory, epidemiological, and interventional studies related to preserving health throughout a whole life span. For young professionals in biomedical sciences, this conference will allow presentation of their results and discussion with international experts.

Our vision for the participants of this conference is to contribute to the scientific program, either by oral or poster presentations, with a time set aside for scientific interaction.

We look forward to seeing young leading researchers from European and extra-European countries who wish to present and discuss the results of their research.

JAGIELLONIAN
UNIVERSITY
MEDICAL
COLLEGE

Prof. Tomasz Grodzicki

Vice-Rector
of the Jagiellonian University
for the Medical College

Prof. Marek Sanak

Jagiellonian University Deputy
for Research and Development
for the Medical College

Prof. Katarzyna Stolarz-Skrzypek

Organizing Committee

INVITED
SPEAKERS
& DATES

INVITED SPEAKERS:

Prof. Jacek J. Hawiger
Vanderbilt University,
Nashville, US

Distinguished Professor of Medicine and a Professor of Molecular Physiology and Biophysics at the Vanderbilt University School of Medicine, Nashville, US. His major research interests include molecular basis of innate immunity and inflammation, intracellular immunotherapy, and thrombosis.

Prof. Frederica P. Perera
Columbia University,
New York, US

Professor of Environmental Health Sciences and the Director of the Columbia Center for Children's Environmental Health, US. She is internationally recognized for pioneering the field of molecular epidemiology, utilizing biomarkers to understand links between environmental exposures and disease.

Prof. Franz Messerli
University of Bern,
Switzerland

Professor of Medicine at Mount Sinai Health Medical Center at the Icahn School of Medicine in the Division of Cardiology, and also is a Visiting Professor in the Department of Cardiology of Bern University Hospital, and in Jagiellonian University Medical College, Krakow, Poland. He is an expert in hypertensive cardiovascular disease and preventive cardiology.

Prof. Jan A. Staessen
University of Leuven,
Belgium

Professor of Medicine at the University of Leuven and Head of Hypertension and Cardiovascular Epidemiology, Department of Cardiovascular Diseases in University of Leuven, Belgium. His research interests focus on genetics, epidemiology, and treatment of cardiovascular disease - in particular, hypertension.

DATES:

 Conference Venue:
Cracow, Poland

 Conference Dates:
7-9 September 2017

 Registration deadline:
31st July 2017

 Abstract submission
deadline:
30th June 2017

Imagine a city...

...where you can find the **mythical legendary dragon** and one of the oldest castle in the heart of Europe
...where you can admire **romantic alleys, breathtaking views**, unique historic buildings and monuments

...where you can try the best Polish **traditional food**
...where you can experience the Polish traditional hospitality
